

Anil Pujari

Hardware Design Engineer

Summary

Hardware Design Engineer with 9 years of experience in the electronics domain, including 6 years of experience in hardware design and development for automotive and industrial applications. Strong expertise in ECU architecture, High speed design using NXP, Renesas, Ambarella SoC's, Texas Instruments, Validation, testing, root cause analysis, multilayer PCB development, Power supply design. Experienced in designing and validating interfaces such as CAN, SPI, I2C, UART and MIPI-CSI. Proven involvement in end-to-end product development from schematic design to validation and production support.

Skills and Tools

- Electronics Analog and Digital hardware design
- Automotive ECU development
- High speed interface design (CAN, SPI, I2C, UART, MIPI-CSI)
- Power supply design (Buck, LDO, Buck-Boost)
- Circuit Simulation and Worst cause analysis
- Automotive validation and vehicle testing
- ADAS and Automotive Camera Systems.
- Multilayer PCB design and schematic design in Altium tool
- Project management tools – ERP, Jira
- Hands-on experience with Vector CAN tool (CANalyzer /CANoe)

Experience

Sr. Hardware Design Engineer at Starkenn Technologies Pvt. Ltd., Pune, India
May 2023 to March 2026

- Contributed to the design and development of Driver Monitoring system (DMS), Automotive Radar processing unit, Electronics Parking Brake ECU (EPB), Collision Avoidance System ECU.
- Worked on Ambarella CV25 SoC, NXP S32k312 controller, Texas instrument AWR1843AoP, Renesas R7F7016 series, High speed interface including LPDDR4, eMMC.
- Responsible for Low level design documentation, Components selection, Schematic design using Altium, Guide PCB design team.
- Designed automotive ECU hardware supporting ADAS camera systems.
- New components evaluation and validation cost reduction for ECU.
- Design and validation interface including CAN, I2C, SPI, UART, SD card, WIFI/BLE modules and SerDes (GMSL).
- Controller pin mapping, bring-up and debugging.
- Reduced BOM cost by evaluating alternative components.
- Bench level validation of various ECUs, electronics board, Co-ordinate for testing validation at ARAI for production release.
- PCB layout and components placement guideline preparation for CAD engineer.
- Created details technical drawing with precise measurement.
- Created technical documents and presentation for internal and external use.

IOT Design Engineer (Hardware) at IOTLYNX Technologies Pvt Ltd (Balewadi, Pune)

Oct 2021 to Feb 2023

- Contributed to the design and development of LORAWAN and TPMS (Tire Pressure Monitoring System) which included PCB designing, Digital embedded circuit design, Power switching and Battery monitoring system.
- Create detailed test plan: RF device, Power, sensors, execute test plans.
- Perform schematic design and PCB layout design in Altium.
- Generate part lists, BOM, and provides production cost estimates.
- Work with software team on device bring up and development.
- Debug PCB using various test equipment such as oscilloscopes, DMMs, counters, logic analyzers
- Assist with the fabrication, including procurement and build process, and test of prototype hardware.

Senior R&D Engineer at Nexsel Tech Pvt. Ltd.

July 2020 to Oct 2021

- Contributed to the design and development of horticulture lighting, which included PCB designing, Digital embedded circuit design, Power switching.
- Developing new design solutions and reconfiguration existing product design for use in new applications.
- Generate part lists, BOM, and provides production cost estimates.
- Generate concept designs, cost estimates, performances specifications, and production criteria.
- Provide technical assistance to internal and external customers and provides programming and testing support to product manufacturing.
- Work closely with new product launch team and the final manufacturing location to ensure smooth launch and transition of product into the production facility.

Sales and Service Engineer at Keetronics (India) Pvt. Ltd.

January 2020 to June 2020

- Prepare and deliver technical presentations explaining products to customers and prospective customers.
- Understand product feature and explaining the value addition to the customer.
- Create quotations in response to customer inquiries.
- Search new client through cold calling, social media, and visits in designated region.
- Planning and executing various marketing activities like e-mail campaign, participation in exhibition, Customer data management.
- Preparing sales report and participating in monthly sales review meeting.

Electronics Technician in R&D at Ecofrost Technology's Pvt. Ltd, Pune

Dec 2018 to Jan 2020

- Co-ordinated with R&D team to develop integration plans and technical profile.
- Component's selection, testing and prototype product development.
- Assembly of project related PCB (SMD & Leaded components).
- Identify Defects with various components and found suitable replacements.
- Standard test devises, test equipment and circuitry to conduct functional, operational, environmental, and life tests to evaluate performance and reliability of prototype.
- Making production and service testing process documents.
- Handle store inventory in SAP.

Designing and Testing Engineer at Dzine Arena Pvt. Ltd, Pune
Sept 2017 to Dec 2018

- Develop a detailed project plan to monitor and track progress.
- Developed controller board for X-ray baggage Scanning machine.
- Maintaining Calibrating of instrument according to schedule.
- Create and maintain comprehensive project documentation.
- Inspection of electronics product, component as well as monitoring of final inspection.
- Performed troubleshoot on electronic system and performed repairs.
- Meet with clients to take detailed ordering briefs and clarify specific requirements of projects.

Education

Bachelor of Engineering in Electronics & Telecommunication
PCCOE

April 2015
Pune University

Diploma in Electronics & Telecommunication
M.M. Polytechnic

June 2012
MSBTE, Pune

SSC in Maharashtra Board
LTMV

June 2009
Pune, Maharashtra

Languages

English, Hindi, Marathi

Personal Details

- Date of Birth – 5th Feb 1994
- Marital Status – Married
- Current Address – Sr No 62, Shreenagr, Rahatani Area, Pune 411017
- Native Place – Sangli, maharsahtra, India

Certification

Advanced Diploma in Industrial PCB Designing from Teknomindz Institute of Advance Technology
